

Protests at the 1968 Democratic National Convention were captured live on tape by the media and broadcast to the rest of the United States on TV, vividly showing the Chicago police ruthlessly beat and arrest both demonstrators and by-standers, including a British diplomat who was merely trying to get to her hotel.

MASS UP! and let the POWER of our Happy Friday bike love parade provide living testimony to the fact the streets of Chicago belong to the people and true Americans will NOT ACCEPT a celebration of fascist brutality.
