Bike Humor

- Q. What's the hardest part about learning to ride a bike?
A. The pavement.

My granny started cycling, she's been doing ten miles a day –
and now we don't know where the heck she is!

"Mom, I want to be a bike racer when I grow up."
"Sorry dear, you can't do both."

- Q. Why couldn't the bike stand up on its own?
A. Because it was "two tired."

Two ladies are biking down a cobbled road. One says, "I've never
come this way before." The other replies, "Must be the cobbles."

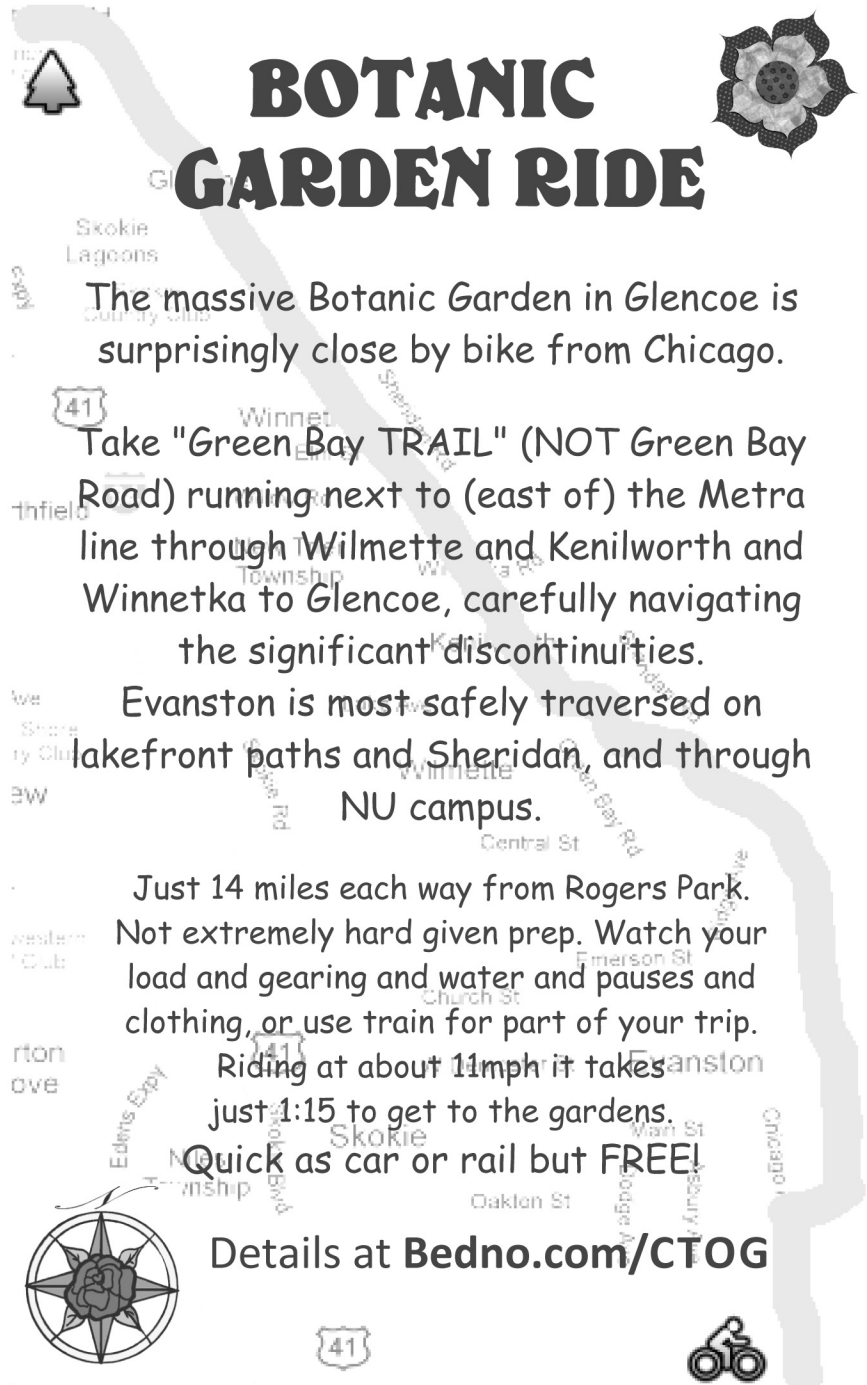

BODIGAL MASS

Come join this fun and safe and slow group bike event for
kids, kids at heart, and families, to celebrate, educate,
and build kids' confidence, skills, and comfort with urban
outdoor riding, with a happy parade atmosphere.

BOTANIC GARDEN RIDE

The massive Botanic Garden in Glencoe is surprisingly close by bike from Chicago.

Take "Green Bay TRAIL" (NOT Green Bay Road) running next to (east of) the Metra line through Wilmette and Kenilworth and Winnetka to Glencoe, carefully navigating the significant discontinuities.

Evanston is most safely traversed on lakefront paths and Sheridan, and through NU campus.

Just 14 miles each way from Rogers Park. Not extremely hard given prep. Watch your load and gearing and water and pauses and clothing, or use train for part of your trip. Riding at about 11mph it takes just 1:15 to get to the gardens. Quick as car or rail but FREE!
